The board held a public information session for taxpayers at the Howes House. There were about 30 people in attendance.

The responsibilities and duties of the assessors were described. In addition there was a review of a property record card, with all sections described in detail. A handout on mass appraisal was reviewed, along with a taxpayer information booklet which included information about assessments, abatements, exemptions, revaluation, and Proposition 2 1/2.

A lengthy question and answer session concluded the meeting.

Respectfully submitted,
