To The West Tisbury Conservation Commission,

I am interested in serving on the West Tisbury Conservation Committee.

I have lived in both West Tisbury and Chilmark year round for the last 37 years since returning from school off island. I have experience with native plants, having been a landscaper for Josie Bruno in West Tisbury and other early native plant gurus (Carol Knapp) as well as working at Polly Hill for 6 years. I have been lucky enough to enjoy, botanize, swim in, sail around and eat shellfish from the West Tisbury Great Pond and other water bodies throughout the island and I want to help with keeping them functioning and healthy.

I was an alternate on the Chilmark Con Com for a year or two about 15 years ago (I can't remember). I resigned the Chilmark Con Com as I was constantly having to leave the meetings to pick up my young boys at school. My boys are all grown up so that isn't an issue anymore. West Tisbury Con Com meetings are also held later in the day and are physically closer (I can bicycle) which works for me and our farm schedule.

I was attending some Con Com meetings in West Tisbury and the board mentioned that they needed members and that I wouldn't have to live in West Tisbury so here is my request to be appointed to the Con Com
