Subject: Zimmerman de minimis foundation request

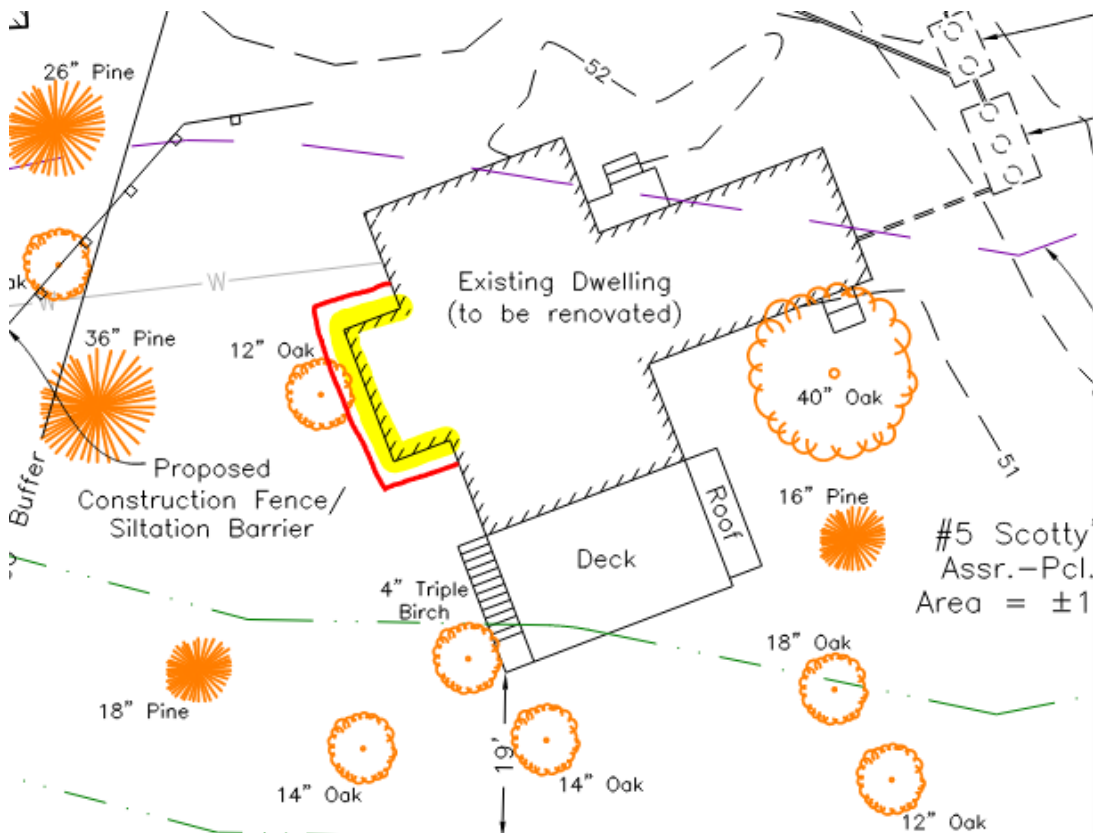

Hi Angela,

Please see the attached site plan and architectural plans showing the area in question.

The existing foundation wall does not match the depth of the full basement. The clients would like to remove the old CMU wall and replace it with a poured foundation. The estimated area of impact is indicated on the site plan.

The yellow highlighted area is the foundation in question and the red line is the approximate overdig; I estimate this will extend 48" from the edge of the foundation wall.

Please let me know if you have any questions.

Regards,

Casey Decker, PE
