

Approved 3/28/24
Minutes of the Facilities Maintenance Committee
2/08/24

In Attendance: Greg Pachico, Jennifer Rand, Joe Tierney, Scotty Young, Pat Mitchell, Donald Velozo
Roger Harris, Richard Andre, Hossom Mahmoud, Alexandra Pratt, Mike Hull

Library HVAC Site Visit :

The committee walked through the library with Rise Engineering to discuss the needs for the project. Roger showed Mike where ceiling access points would need to be installed to allow the work to happen. Richard explained the potential needs for the planned roof solar project. The load for the generator was discussed at length to determine what the generator would need to run. It was clear the generator would need to be replaced. The committee agreed that that should be a separate bid in order to not slow down the other bidding process.
