May 29, 2020

Board of Health Notice

At the May 28<sup>th</sup> meeting of the West Tisbury Board of Health, the Board members unanimously voted to ban dogs from Lambert's Cove Beach for reasons related to owners not adhering to dog waste clean-up and leash requirements.

During this pandemic it is of utmost importance that dogs not be allowed to roam freely while efforts to maintain social distancing are being emphasized to mitigate the spread of Covid-19.

Understanding that enforcing these two concerns will be difficult; the West Tisbury Board of Health will proceed without delay, banning dogs from Lambert's Cove Beach until such time as the Board agrees that Covid-19 is no longer a significant threat to the community.

Sincerely,

Omar Johns (Health Agent/West Tisbury BOH)
