## Comment 124:

The vegetation growing on and around the barn needs to be cut back significantly. It is negatively impacting the structure in several ways (siding, trim, roofing, insects).

Vegetation:

Generally Maintained  
Condition: Marginal

Comment 10:

Recommend maintaining all tree, shrub and plant growth trimmed 1-3 feet away from the structure to allow for proper ventilation and help reduce the risk of rot as well as insects using the vegetation as a gateway to the home. See also comments regarding vegetation in the barn/garage section.
