Subject: extension request

Hi all,

We are writing to request an extension of our special permit (2018-17) to build a shed on our property.

This project was started (contracting with steel company etc) in the fall of 2019, and I think we all know where 2020 went!

We are back on track with getting the work done, and again respectfully request a one year extension.

Thank you for your attention to this.

Best,

Tara Whiting-Wells and Peter Wells
