Subject: Request for amendment

March 24, 2022

Dear Board Members,

I am writing to you to respectfully request an amendment to our current site plan. We would like to shift the structure 20 feet to the west of it's current planned location with no encroachment on our neighbor. After meeting with our foundation contractor, he suggested the shift due to my concern with having to remove old growth pine trees based on the current plan. This location shift will allow our old growth pine trees to remain and to provide our northern neighbor additional privacy. It will get give us a closer run to our electric and septic services and avoiding a possible rerouting to our water main. This will reduce our construction costs that have been skyrocketing. Thank you for your time and consideration on this matter/request.

Respectfully,

Two handwritten signatures in black ink. The first signature is a stylized, cursive 'MG' for Mauricio Gomez. The second signature is a cursive signature that appears to be 'Stephanie Gomez'.
