Subject: WTFM 2021 Permitting

Hi Ms Thors,

My name is Tucker Pforzheimer, and I'm the new co-manager of the West Tisbury Farmers Market with Elana Carlson.

I hope you've enjoyed this slice of 'real' winter and seasonal distinction, and are looking forward to the warmer ones!

I wanted to reach out to open a conversation about having the Farmers Market at the Ag Society field again this coming season. After speaking with Omar, it appears likely that state COVID regulations will likely be in place for the better part of the market season, making it crucial to maintain our socially distanced setup from last year in order to operate safely.

I understand there needs to be an exclusion granted based on town zoning laws governing usage of the Ag Society grounds, and would be appreciative of any info you could provide about that specific language to better acquaint myself with the code involved.

If it's more convenient for you to chat via phone, I'm available at 203 644 8390 to discuss what will go into applying for another special permit for the 2021 season.

Thanks so much for your help with this, and looking forward to hearing from you soon!

All the best,
Tucker
