

Hello,

We want to explain why we are asking for a pool permit.

Formalities:

We are submitting this Special Permit application to request permission to build an above ground pool at our property 5 Vincent Road in West Tisbury Massachusetts.

The pool is an Azor Resin Saltwater 54" wall oval 18' by 33' pool.

We will locate it more than 50' from all property lines and more than 10' from septic tank and leeching fields. It is more than 500' from any neighboring property dwellings.

It will be properly secured according to local and state codes for safety and in order to have property insurance approve it.

Real reasons:

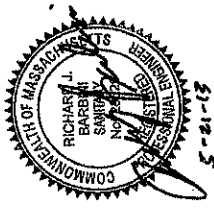

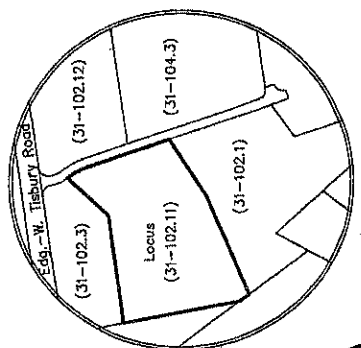

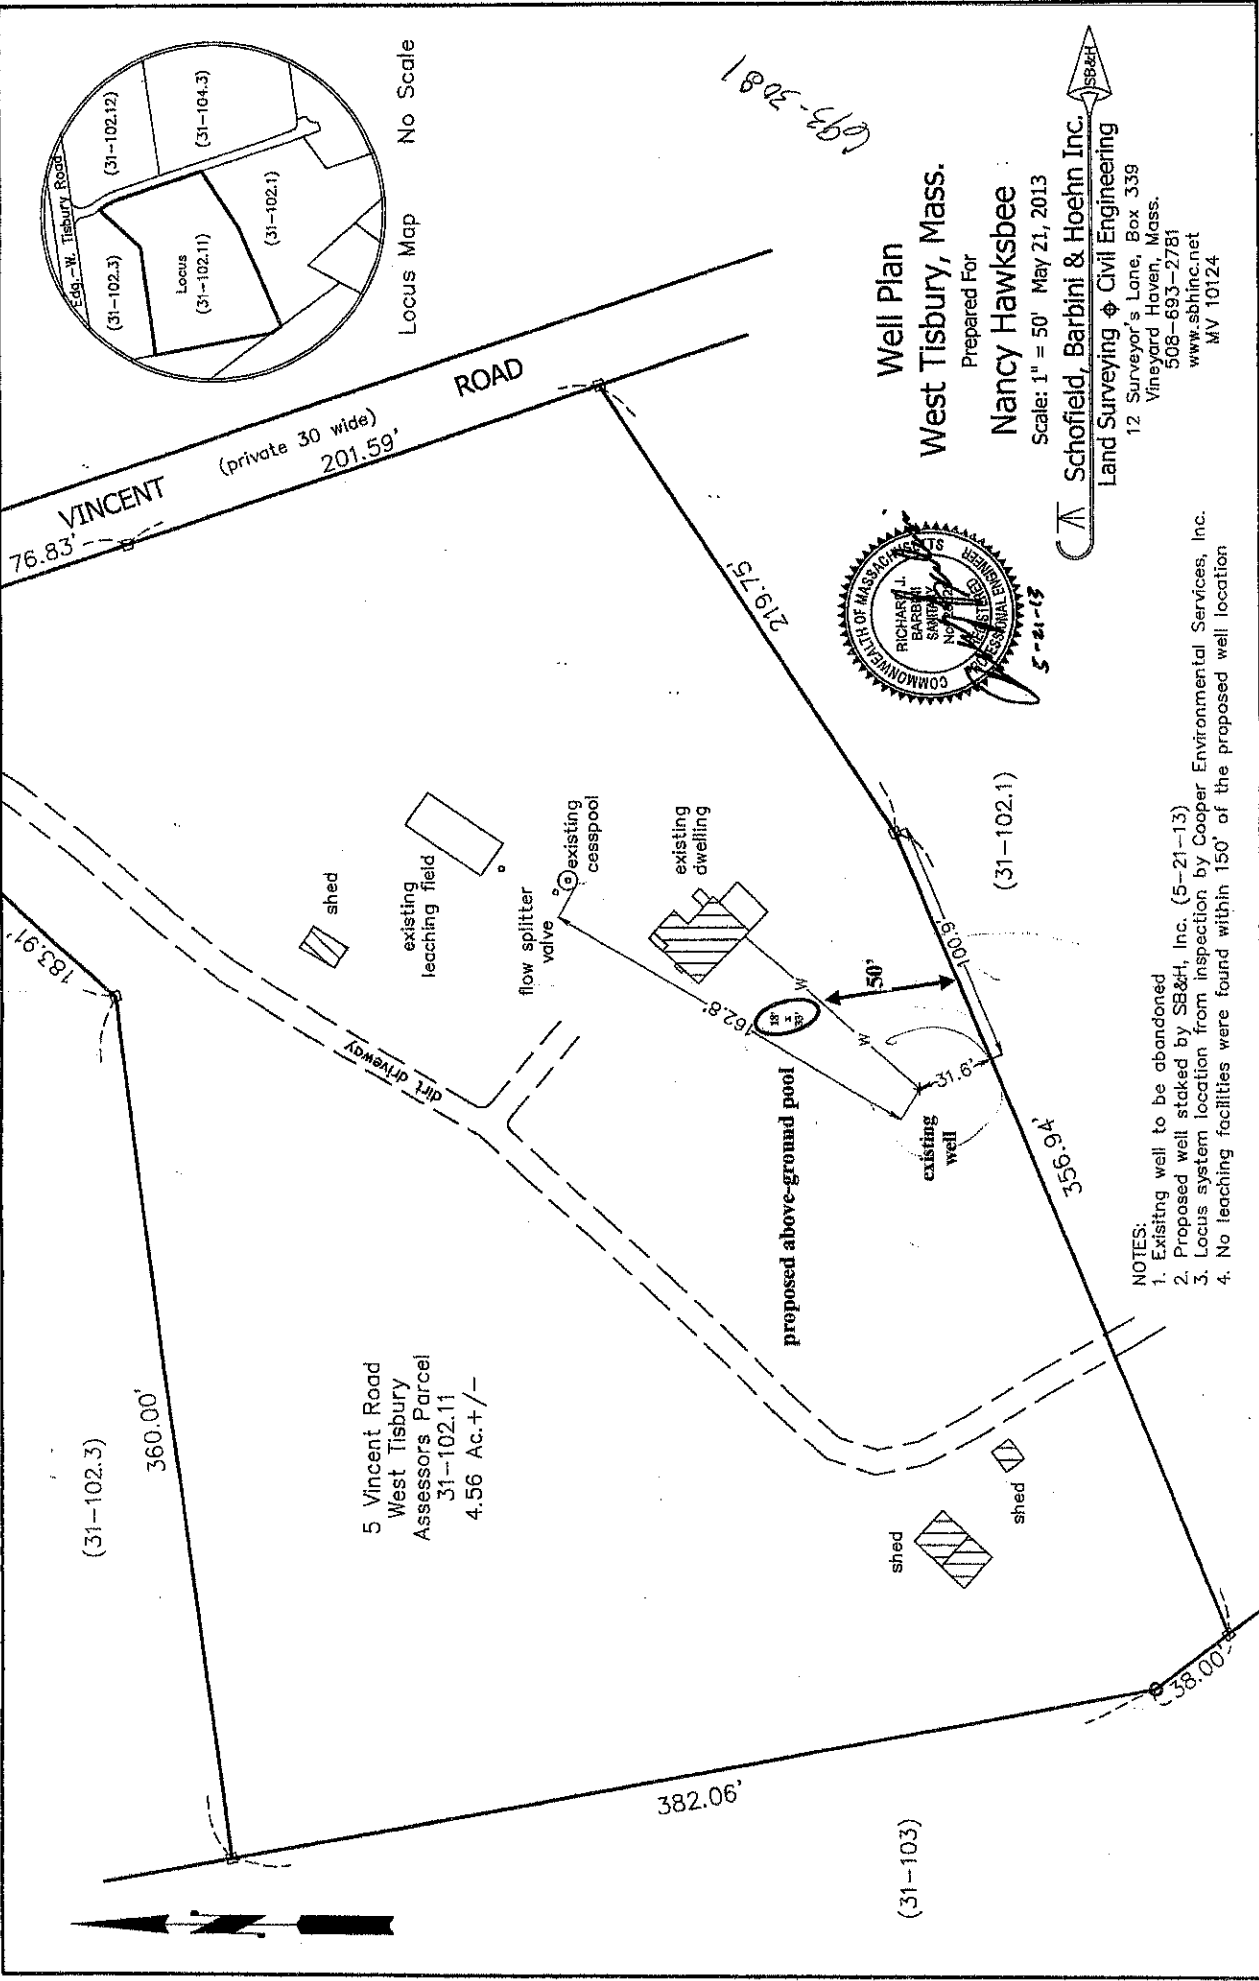

We have 3 children, 9, 12, 14 and all of their summer activities were canceled. As much as I thought this would be the perfect summer to teach them work ethic and that "its not all about them", we were hoping a fun pool would give them some joy during these strange new pandemic times. Also we worry about how much all of us will be quarantined due to Covid-19 and this (and the freezer full of meat and garden) will help us stay home.

A small additional reason, I am on my 3rd ACL in my knee and swimming is my only allowed form of exercise so a pool will be good for my health.

Thanks for considering this.

Warmly,

Jaka Saarony
