

Marchigiano Pool

12 Waldrons Road

West Tisbury

To the West Tisbury Board of Appeals:

Please find below answers to questions posed with respect to the pool we wish to build on our property

1. The size of the pool will be 17'X 34'

2. The size of the hot tub will be 6'X 8'. Please refer to sketch we have provided.

3. We intend to build a fence that is a 3 rail split rail fence backed with a 4 ft. high black coated 1" X 3" wire mesh. The gates are custom made mahogany with picket posts, also 4 ft. high. The gate will have self-closing hinges with magnetic safety latches. The hinges and latches are specifically for pool safety designed by a company called 3D Technologies. Tracey, the engineer representing us from SBH is in possession of photos of the latches, the gates and the hinges.

4. – Pool equipment enclosure : it will be located on the southwest corner of the existing garage and will be installed on an 8' X 6" concrete pad. It will be enclosed by a 4' high cedar picket fence. Please see illustration.

We are happy to answer any other questions.

The Marchigiano Family
