

**NOTE:**

- Approximate "Edge of Pavement" from satellite imagery February 2018
- Driver sight line measured 14'-5" back from "Edge of Pavement"
- Road apex and cutback dimensions verified in the Field 11/26/22
- Pre existing edge of vegetation to "edge of pavement" measured 6', recent clearing of an additional 4' by the applicant has already improved sight lines
- **Additional clearing of 5'** will provide a total of 15' from "Edge of Pavement" at the apex allowing for 200' + sight lines to south

**STILLPOINT PROJECT  
SIGHT DISTANCES TO SOUTH ALONG STATE ROAD**

Scale 1" = 40'
