Dear Town Administrator and Members of the Select Board:

State Road Restaurant requests approval to extend the end date for our permitted outdoor seating to April 1, 2022, pursuant to the Commonwealth of Massachusetts Bill S.2475 - An Act relative to extending certain COVID-19 measures adopted during the state of emergency.

**SECTION 19: Patios/Outdoor Expansions: licensees that have been approved for expanded patio/outdoor service pursuant to the Governor's executive orders may continue their outdoor operations until April 1, 2022.**

Fantzye Suppers serve at the tables on the front lawn at their pop-up dinners on Monday nights. Currently, we are currently not using outdoor tables for service and there are no tables set up on the front lawn Tuesdays through Sundays. We have four tables in the herb garden on the back side of the building that we use for guests waiting for an indoor table. These tables in the herb garden are also used for takeaway coffee, bagels, and pastries on Sundays from 9:30 – 11:30am.

Due to staff shortage issues, we do not foresee a change to this model of operation for the rest of the season. We feel it is important that we apply for this extension so we are prepared should there be a Covid-19 development that causes another pivot to outdoors.

We thank you for your consideration.

Sincerely,

Mary Kenworth
