Attention: Kent Healy, Skipper Manter and Cynthia Mitchell,

Subject; West Tisbury Post Office

I would like to bring to your attention that my address, HAS 3 TOWNS in it. My actual address according to you, the Town of West Tisbury is: 208 Edgartown Road West Tisbury, MA. Why does our address situation have to be so confusing? When ordering ANYTHING, I have to review how they are going to ship it. If someone changes the shipping and accidentally sends it to the West Tisbury Post Office, I have to go to the Post Office and show the counter person the tracking information. I am usually treated rudely, and reminded that, "my address it not an

address. First off, why can't the West Tisbury Post Office employees actually try to get to know the people who live in there own town, and stop treating us so rudely when we come in to retrieve our parcels. I would like to purpose a solution to this annoying problem that almost every one in the Town encounters. Let's make West Tisbury separate from Vineyard Haven. It's 2 different towns with 2 different zip codes. Let's get a couple of rural drivers to deliver our mail from West Tisbury like every other town has on the Vineyard. Example, in Chilmark and Aquinnah, they have Leigh Moreis, he is pleasant, knows every one and they have a delivery person that delivers mail to 2 towns. Why can't West Tisbury do this. I will go out of my way to go to Chilmark to mail my letters because of this small town feel and that I don't want get chastised for using the wrong address from my own Town. I am tired of trying to educate the whole world about my silly address problem. Are You? I have suggested this to both West Tisbury and to Vineyard Haven counter help and both look at me confused but usually blame it on funding. If they send the couple of mail trucks that they use from VH to deliver mail up to West Tisbury, isn't this a common sense solution to a very frustrating problem.

Thank you for hearing our thoughts .
