

Town of West Tisbury
BOARD OF SELECTMEN
West Tisbury, Massachusetts 02575

The Town of West Tisbury has consistently committed to changes that will allow the town to adapt to, and limit the impact of, climate change and energy consumption. To that end, the Select Board is looking to take a holistic approach to municipal projects that involve our energy use or have climate implications. We would like to ask your committee to commit to working together with other town boards and committees to review projects as they come forward so that each project we undertake is as responsible and low impact as possible.

What this means is that projects will be sent to you for comments when appropriate, and you will be asked for your thoughts in a timely manner taking into account the goals we have for a reduction in our climate impacts. Please let us know if you have any questions, otherwise we look forward to town-wide cooperation to a more sustainable future.

Sincerely,

Cynthia E. Mitchell
