Re: Map 37, Lot 16

Chris and Lesley Heidt, owners of 246 Vineyard Meadow Farms Road ask the board for approval to construct a detached 24'x28' two car garage with a full basement for storage and un-finished second story. There will be no plumbing inside the structure.

For ideal siting for the above structure in relation to the house, we request 25' setback relief from the northerly property line.

Also requested is approval to install an inground 18'x40' pool. We would like to use the existing shed in its current location to house the pool equipment. In order to accommodate this, we request 41' of setback relief from the northerly line.

We appreciate your consideration of our application.
Sincerely,

Chris and Lesley Heidt
