Mass Department of Transportation
Barbara LaChance
10 Park Plaza, Suite 4160
Boston, MA 02116

Dear Barbara:

At our site visit to the Mill Brook Bridge in the spring of 2022, it was mentioned that Mass DOT would install traffic calming instruments until an upgraded bridge could be installed. To date nothing has been installed. Occasionally, the police department erects a flashing speed sign to alert drivers to slow down. However, the speed sign is temporary and is relocated throughout the town regularly. We expected to see something permanently placed in the vicinity of the bridge reduce the speed on both sides of approaching traffic.

We appreciate your attention to this matter.

Thank you,

Sincerely,
Oliver Osnoss, Committee Chair
