Hello again Pam,

Thank you for your help and clarification.

I would like to request that you please add section 8.5-4c under section bylaws to my application for the swimming pool.

Together with the pool permit application, we would like to apply for a permit to convert the existing garage into a summer/ seasonal pool house by:

- 1) adding a half bath (sink and toilette),
- 2) adding a newer refrigerator, a sink and a dishwasher
- 3) adding two sliding doors with stationary glass panels on the side of the garage facing the pool direction
- 4) building a BBQ area outside, adjacent to the garage and only accessible through the new sliding doors
- 5) painting unfinished interior of the garage

Please check drawings and 3D images attached. Thank you

Finally, the whole pool area will be fenced in. However, in 2 areas:

- 1- adjacent to the garage (12 feet) and
- 2- alongside the driveway (36 feet)

I would like to have the same type of fence currently on the deck, which is stainless steel with horizontal cable railings.

The fence will be 4 feet high and the gate will be self lock as required in pool area,

I am attaching a photo for your review THANK YOU.

If you have any questions please contact me at any time.

I appreciate your help.

Sincerely,

Paula Reidbord

Dear Pam Thors,

Thank you very much for your call yesterday and for clarifying some of the requirements for the application for a permit for a swimming pool and a pool house.

Please find attached:

- 1- drawing of the garage plans with a darker outline and furniture placement.
- 2- a letter explaining the intentions of usage for the garage (edited)
- 3- photos of the current garage to show unfinished interiors, walls, and ceiling.

Please let me know if you may need any additional information.

Thank you very much and have a nice weekend
Paula Reidbord
