Hi Omar,
Attached is the **revised** Salt Rock Chocolate Kitchen Floor Plan, which now includes a hand-wash sink and a mop sink.

Hope you are doing ok.
Thank you!

Ali

Hi Omar,

Here is a very rough draft of our floor plan. One plan show in red marker the section of the barn that will be used for the kitchen. The second plan shows approximately where we will place our equipment. All plumbing will be placed on the southern wall of the barn. I added a blue marker where the second door will be, we will probably move the freezer next to it. There won't be any stoves or dishwashers.

Please let us know if you have any questions. Thanks!
Ali
