Project Description

The project includes the construction of a 18' by 36' in-ground swimming pool. The proposed pool fence enclosure will meet requirements of the referenced MA State Building Code. Pool equipment will be stored within a proposed 8' by 29' pool house. The proposed pool house will include a sitting area, kitchen, bath, shower and changing area. There will be a sink in the counter. There is a niche for a refrigerator on the wall between this space and the pool equipment and storage room. No other appliances are planned. There will be a moveable grill. Outside under the trellis there may be a propane-fire for sitting around. The space is unconditioned.
