DWA PLAN REVIEW APPROVED:

DWA PLAN REVIEW NOT APPROVED:

DWA APPROVED:

Lynley Projects, LLC 3-7- This septic application was previously submitted on December 23, 2020 and was approved with no variances. The septic system and leaching field were installed on the lot. A second septic plan was submitted today, which contained a variance (200 feet separation from coastal district to leaching field; 165 feet requested.) This application was approved. The variance was not on the first application therefore the installed septic system violated West Tisbury Board of Health regulations. A letter will be drafted and sent to the septic installer, Stedman Construction, outlining the violations. Stedman Construction will be fined on a figure that has yet to be determined.

Garrison Viera 26-13.2

Juarez Deoliveira 31-63

Bruce Macnelly 17-8

Erik Peckar 29-29

Griffin Gardner 16-96.2

Jill White 29-8

Alison Curtin 16-121

DWA NOT APPROVED:

Lamberts Cove Inn 7-99- The Board did not receive the septic system application.

Saul and Emma Damier 12-40.1 (tentative)- The Board requested the well report and water analysis in order to approve the application.

Matt Burke 7-150.6 (tentative)- The Board gave the application tentative approval because the building plans had not been received.

OLD/NEW BUSINESS:

BOH Budget Review: The Board approved the budget. There were no changes from the previous year.

Approve PFAS Support Letter: Health Agent Omar Johnson is in the process of drafting a letter in support of opposing PFAS chemicals in any construction/building materials on Martha's Vineyard.

Covid-19 Update: Summarized the increase in the number of COVID-19 cases on the island. In the past three weeks, there have been 1055 new cases. The dramatic increase in cases is due to the recent mass wide island distribution of Covid-19 rapid test kits. The public was instructed to record their results on [rapidtestmv.org](http://rapidtestmv.org) if they tested positive. The town of West Tisbury is expected to get 1,350 rapid Covid test kits on January 18, 2022 and an additional 2,700 test kits on January 24, 2022 from Island Health Care. On January 9, 2022 the Martha's Vineyard Boards of Health held a vaccination clinic at the Martha's Vineyard Regional High School. About 550 children and adults received vaccines.
