Blue Heron LLC 35-1.9 The Board requested that the Health Agent touch base with the Con Com representative to make absolutely certain that there are no concerns due to the septic systems close proximity to the Great Pond. There was also discussion regarding the need for septic systems that provide better protection for the ponds ( Advanced Denitrification systems). The Board is of the understanding that this can only be recommended, due to regulations not being in place. This application and these concerns will be re-visited due to increasing concerns related to establishing greater protections for the waterway.
