DWA NOT APPROVED: Carlos Gomes Teles Filho 29-86.16- The Board wanted to know what the required setbacks were from the proposed addition to the property line. On the proposed design, the building to property line was 37 feet and the required setback is believed to be 50 feet. Additionally, the number of bedrooms on the lot is not allowed based on the lot's acreage. The lot might be applying the "open space development" regulation and could be exempt from BOH regulations. Further investigation is needed and the Board will be informed of the findings.
