Hearings:

5:30 PM

Sig Van Raan 90 Music Street Map 32 Lot 253 for major changes and additions to existing property and driveway relocation. Proposed driveway is quite wide. Neighbors had some concerns, as did HDC. Sig decided he would withdraw that part of application and continue to use the existing driveway, and submit a new site plan.

We approved the addition to the house as drawn, and the design of the garage, with the garage turned around to have doors face the house. We will approve the site plan showing the original driveway retained and proposed driveway removed when we have it available to us.

Chris Morse and Jim Feiner did not attend to discuss their plans for a future application.

We approved all minutes.

Sean noted we are still waiting for landscaping plans from the VTA re project at Town Hall, which will require screening before final approval by HDC. Nancy will ask Jen Rand for an update.

Respectfully submitted,

Nancy Dole, Secretary
